You may have noticed recently that Associa's website looks rather generic. The website was taken down in order to make way for the new **townSq** app starting March 5, 2018.

**townSq** is the leading, global solution for better community living. Designed as an all in one solution for managing communities, **townSq** delivers the most complete, mobile community experience by helping you connect, collaborate and stay informed on everything happening in your community – from daily management and ongoing maintenance to community programs and events. Our communities use **townSq** to empower community management teams, board members and homeowners to experience community their way. (taken directly from <https://www.townsq.io/>)

The website will be up and running soon. Go to <https://www.townsq.io/> for a demo.
